

SANTIAGO GARCIA SANCHEZ

Data Scientist | Data Analyst | Statistician

santiagoosquel@gmail.com | +54 9 2945 690132 | [LinkedIn](#) | [Professional Portfolio](#)

Professional Profile

Statistician and data scientist specializing in statistical models, machine learning, and applied data analysis. Bachelor's degree in Statistics (National University of Rosario) and Master's in Statistics for Data Science (Charles III University of Madrid). Experience as an independent analyst, managing all stages of analysis: data collection, data cleaning and processing, modelling, visualization, and report writing. Experience as a university lecturer in applied statistics, inference, and data visualization. Works primarily with R (ggplot2, Quarto, Shiny) and Python (Scikit-learn, Pandas), along with advanced Excel, SPSS, SQL, and Power BI.

Work Experience

Independent Statistician — Freelance

Nov. 2022 – Present

- Statistical studies and technical assistance for multiple public and private organizations: data analysis, statistical modelling, and report writing.

Academic Writer — Xpandete

Nov. 2023 – Present

- Writing of academic statistics content; assistance with thesis writing and research reports.
- Cleaning and analysis of databases for client projects.

Assistant University Professor — Pontifical Catholic University of Argentina

Aug. 2024 – Aug. 2025

- Taught multiple courses for Industrial Engineering, Data Science, and Digital Business Management degree programs.
- Development of syllabi, teaching materials, and assessment activities.
- Taught basic and intermediate statistics applied to data science.

Teaching Assistant — National University of Rosario

Apr. 2024 – Aug. 2025

- Collaborated in teaching theoretical and practical content in Statistics and Data Processing.
- Preparation and grading of assignments and exams; participation in research and outreach activities.

Data Analyst — National University of Rafaela

Apr. 2023 – Oct. 2023

- Cleaning, formatting, and organization of datasets; preparation of statistical reports.
- Creation of maps, charts, and other visual elements to communicate results.

Education

Master's in Statistics for Data Science — Charles III University of Madrid

2025 – 2026

- Master's thesis: "*Children and Youth Perceptions of the Natural Environment in England*" (2026).

Bachelor's Degree in Statistics — National University of Rosario

2018 – 2022

- Undergraduate thesis: "*Supervised Classification of Fiction Texts by Genre Using Random Forests*" (2023).

Technical Skills

- Programming languages:** Python (NumPy, Pandas, Polars, Scikit-learn, TensorFlow, Keras, Statsmodels, SciPy), R (Tidyverse, Tidymodels, Shiny, R Markdown/Quarto, Rcpp), SQL, Java, MATLAB
- Machine Learning and Statistics:** Machine learning, neural networks, statistical models, multivariate analysis, time series, survival analysis, experimental design, sampling, econometrics, biostatistics, stochastic processes, optimization methods
- Visualization and Business Intelligence:** Power BI, Tableau, Qlik, Matplotlib, Seaborn, Plotly, Vega-Altair, ggplot2
- Statistical software:** SAS, SPSS, Stata, Minitab, Statgraphics, WinBUGS/OpenBUGS
- Other tools:** Advanced Excel (Power Query, Power Pivot, DAX), Git, Docker, LaTeX

Languages

Spanish (native) – English (professional) – French (advanced) – Portuguese (intermediate) – Italian (basic)

Publications

- "*ClustMC: Cluster-Based Multiple Comparisons*" — package published on The Comprehensive R Archive Network (CRAN) (2024).
- "*Market Value Analysis of Elite Soccer Players*" — Journal of the Faculty of Engineering, Universidad de Atacama (2023).
